## Foreword

### Foreword from the Chair:

The development of Kildare Children and Young People's Services Committee (KCYPSC) second 3-Year Plan is the culmination of the efforts of many individuals and organisations in Co. Kildare.

It is heartening to experience the continued commitment of member organisations to the work of KCYPSC in the context of increasing demands, reduced resources & a changing environment.

The new Plan is built on a solid foundation of inter-agency collaborative working that has further grown and developed over the last 3 years.

The Plan reflects the growing realisation by KCYPSC of the value of our collective voice in achieving our shared goal of improving outcomes for children, young people and families in our county by highlighting their needs and accessing the necessary resources from national level to respond appropriately.

The Kildare CYPSC Plan (2015-2017) is a vital tool to assist us with this important task.

I would like to thank all who contributed to the development of the Kildare Children and Young People's Plan and who remain committed to its implementation.

Patricia Finlay  
Tusla Area Manager Kildare/West Wicklow/Dublin South West  
Chair, Kildare Children & Young People's Services Committee  
February 2015

## **Section 1: Introduction**

The purpose of the Children and Young People's Services Committees is to secure better outcomes for children and young people through more effective integration of existing services and interventions at local level.

CYPSCs work towards the five national outcomes for children and young people in Ireland. These are that children and young people

- 1. Are active and healthy, with positive physical and mental wellbeing**
- 2. Are achieving full potential in all areas of learning and development**
- 3. Are safe and protected from harm**
- 4. Have economic security and opportunity**
- 5. Are connected, respected and contributing to their world**

## Background to Children and Young People's Services Committees

### Children and Young People's Services Committees in Ireland

The Office of the Minister for Children and Youth Affairs (OMCYA), now the Department of Children and Youth Affairs, established the Children and Young People's Services Committees in 2007 with the purpose of improving outcomes for children and families at local and community level. Since then CYPSCs have increased incrementally in number and are a key structure identified by Government to plan and co-ordinate services for children and young people in every county in Ireland.

CYPSCs bring together a diverse group of agencies in local county areas to engage in joint planning of services for children and young people. All major organisations and agencies working locally on behalf of children and young people are represented. These committees work to improve the lives of children, young people and families at local and community level through integrated planning and improved service delivery.

*Better Outcomes, Brighter Futures: the National Policy Framework for Children and Young People 2014 – 2020* underscores the necessity of interagency working and tasks Children and Young People's Services Committees with a key role in this regard.

### Children and Young People's Services Committee in Kildare

Children & Young People's Services Committees (CYPSCs) were set up by the Office of the Minister for Children and Youth Affairs (OMCYA) in 2007 in 4 pilot areas: Donegal, Dublin City, Limerick City and South Dublin.

Kildare joined Phase II of the initiative, along with 5 other areas, in 2009. Following the establishment stage, the inaugural meeting of the Kildare Children & Young People's Services Committee took place in June 2010.

In March 2011, a Coordinator was appointed to support the work of the Committee.

In September 2011, the Committee's first 3 –Year Plan was submitted to the Department of Children & Youth Affairs.

In June 2014, the Children's Services Committee became the Children & Young People's Services Committee, reflecting policy change at national level.

Planning for the second 3-Year plan commenced in 2014, with the plan submitted in early 2015.

## Who we are

The current membership of Kildare CYPSC is below:

It is intended to enhance the membership of the Committee over the lifetime of the new 3-Year Plan to reflect the expanded remit (up to 24 years):

Organisation	Member	Role
Co. Kildare LEADER Partnership	Pat Leogue	Social Inclusion Manager
Garda Siochána	Garry Madden	Sergeant
HSE	Ann O'Shea	General Manager Primary Care
	Noreen Hynes	General Services Manager, Naas Hospital
Irish Primary Principals Network	Mary Pierce	Principal (Retired)
Kildare & Wicklow Education & Training Board	Patricia O'Brien	Education Support Officer
Kildare County Childcare Committee	Julie McNamara	Manager
Kildare County Council	Peter Minnock (Vice Chair)	Director of Service
Kildare Youth Services	Tom Dunne	Regional Director
National Educational Psychological Service	Annette Corkery	Senior Educational Psychologist
Probation Service	Deirdre Matthews	Senior Probation Officer
South West Regional Drugs & Alcohol Task Force	Lisa Baggott	Coordinator
Teach Tearmainn	Jacinta Carey	Manager
Tusla, Child and Family Agency	Patricia Finlay (Chair)	Area Manager
Tusla, Education Welfare Service	Jean Rafter	Regional Manager

## Achievements to date / Review of previous plan

### Achievements

- The continued commitment of member organisations to the work of the CYPSC in the context of increasing demands, reduced resources & changing environment.
- The implementation of the first 3-Year Plan.
- The development of the second 3-Year Plan.
- The strengthening of inter-agency relationships among organisations.
- The enhanced understanding among member organisations of the role & value of the CYPSC.
- The development of the CYPSC as a forum for highlighting the needs, issues, gaps & successes in terms of service provision for children & families in Co. Kildare.
- The development of a range of new initiatives to enhance the support available to children, young people & families in Co. Kildare e.g. iScoil hub, Junior Transition programme, support to parent & toddler groups.
- The establishment of a CE Placement to support the work of the Committee, as part of a collaboration between a number of member organisations.
- The development of positive links with the Local Community Development Committee.
- The delivery of the Strengthening Families programme on a multi-agency basis and the commitment to run the programme annually in the county.

- Laying foundations for the roll out of Meitheal/LAP and the National Drug Rehabilitation Framework via work undertaken in relation to inter-agency working & the development of local inter-agency protocols.
- The gathering, analysis & dissemination of relevant data including some previously unpublished & some that had never previously been collected.
- Engaging with the post primary schools in gathering data in relation to students who leave school.
- The comprehensive profiling of Kildare - demographics, services, statistics – in an accessible way.
- The consultation with children & Young people that was undertaken as part of the planning process.
- The development & maintenance of fora for early school leaving & youth mental health.
- The strengthening of the CYPSC as an information hub.

### **Learning**

- It is important to strike a balance between the strategic focus of the work of the CYPSC and the action focus of the work – both elements are required to maintain commitment, momentum & to facilitate positive change.
- Building and maintaining positive inter-agency relationships is essential to the work of the Committee.
- The pace of new developments can be slower than anticipated but allowing new initiatives to build on a phased basis over time is important for future sustainability and ongoing success.
- In order for actions from the plan to be implemented, it is essential that a sole lead agency is identified to drive the initiative forward.
- In order for collaborative actions to be implemented, it is important that they appear in individual organisational work plans, to reaffirm that they are a priority for the organisation that will be taken into account when allocating resources (financial & human).

### **Challenges**

- Implementing the plan in the context of significant changes within & across organisations is challenging, including changes at Departmental level.
- Implementing a collaborative plan in the context of ongoing budget cuts to organisations is challenging.
- Joint planning and implementation can be a challenge when individual organisations operate to different timelines and processes.
- Multi-agency funding of initiatives, while desirable, can be challenging due to different requirements for applying, drawing down & reporting, as well as different timeframes.
- Maximising the use of the CYPSC as a forum for highlighting issues, gaps, needs, & successes by workers on the ground is a challenge.
- A number of valuable services in the county ceased due to funding constraints, highlighting the limitation of the CYPSC at local level in responding to difficulties posed by significant funding deficits requiring national input.
- Addressing needs at local level that result from systemic issues at national level is a challenge.

### **Impact**

- There is now a recognised forum in the county to act as a focus for highlighting the issues, needs, gaps and successes for children & families and developing appropriate responses.

- Communication has been enhanced in terms of the information flow as to what is available in the county to support children & families and those who work with them.
- The processes for achieving greater coordination in planning & delivery of services have been strengthened, in tandem with an enhanced understanding of what this means in practice.
- Several new initiatives have been developed in the county, enhancing the support available to children & families e.g. iScoil hub, Junior Transition programme, Local Area Pathway Working Group.
- There is a growing awareness among individual member organisations of the value of the collective voice via KCYPSC in accessing supports for Co. Kildare from national level.

## How the Children and Young People’s Plan was developed

The development of the plan took place over several months from June 2014 to February 2015 and included a number of different elements:

- Agreeing the “plan for the plan”
- Review of previous plan
- Literature Review
- Consultation
- Data Collection
- Analysis

### Agreeing the “plan for the plan”

A proposed methodology was presented to the CYPSC and was agreed following discussion. The main components were:

- A number of facilitated sessions with the full Committee, including with an external facilitator.
- Review of the previous plan.
- Consultation with children, young people & parents at the annual Play Day that takes place in the county.
- Input from young people via Comhairle na nÓg AGM.
- Literature review, including of all meeting Minutes of relevant local fora to identify key themes, target groups, issues and gaps.
- Data collection from CYPSC member organisations & relevant others – local, regional & national.

### Review of previous plan

The review of the previous plan took place as part of a main CYPSC meeting, facilitated by the Coordinator.

This was supplemented by existing information provided by the CYPSC via the annual review process.

On foot of the findings of the Review process, the following was taken into account in the planning for the new 3-year Plan:

- It was ensured that a balance was maintained between a strategic focus and an action focus in the content of the plan.
- Any proposed action for which a sole lead agency was not identified from among CYPSC members was not included in the plan.

- Any proposed action for which there was no partner agency (in addition to the lead) was not included in the plan.
- Any proposed action areas for which it was deemed a national response was required was referenced in the plan document but was not included as a specific action in the Action Plan section.
- A number of existing actions areas were agreed for continuation or expansion.
- The number of actions in the action plan was reduced (77 in original plan, 42 in this plan).
- It was ensured that a balance was maintained between universal and targeted interventions and supports for children, young people & families in the county.
- The importance of establishing an evidence base for issues, needs and gaps that are identified anecdotally was reiterated.

#### Literature Review

The literature review element of the planning process was extensive. A review was undertaken of local, regional & national documents – Annual Reports, strategic plans, thematic reports, pre-budget submissions, evaluations, research reports and work plans.

In addition to the above, the meeting Minutes from several relevant local fora were analysed for the period from submission of the first plan (September 2011) to new plan submission date (February 2015) to identify themes, issues, vulnerable groups, blocks & gaps e.g. Parenting Forum, Early School Leaving group, Youth Mental Health group, Mental Health Promotion Steering Group.

These fora operate on an ongoing basis as a means for workers on the ground to highlight current & emerging issues experienced by the children, young people & families with whom they work. The consultative nature of these groups was recognised by the CYPSC and it was agreed that the analysis of meeting Minutes would form the basis of the input from a cross section of organisations working with children, young people and families in the county.

#### Consultation

Consultation took place with members of the CYPSC Main Committee during and between Committee meetings. There were 3 face-to-face group planning sessions. One facilitated by an external facilitator, 2 facilitated by the Coordinator.

In addition to this, there were 1-2-1 meetings with CYPSC members.

Direct consultation with children, young people & families took place at “Play Day”, an annual family event that takes place in the county. Attendees were invited to film their views using a videobooth – answering a number of questions posed to them e.g. what is it like growing up/raising a family in Co. Kildare? What do you think would make Co. Kildare a better place to live?

Additional input from young people was gained via involvement with Comhairle na nÓg. The CYPSC Coordinator was a member of the Steering Group for the AGM, co-facilitated a workshop & participated on the discussion panel on the day.

#### Data Collection

In addition to the data gathered from the elements of the planning process outlined above, there were a number of data collection exercises undertaken:

- Member organisations were invited to complete data sheets based on key messages emerging via other aspects of the planning process.

- Post Primary schools were invited to provide data for students who left school in the academic year 2013/2014.
- Data on the Juvenile Liaison Programme was accessed via the Garda Pulse system.
- Members were invited to submit brief real case studies outlining a block, gap or unmet need experienced by a child, young person or family with whom they work.

A number of documents were particularly useful for the socio-demographic profile of the county. The *County Level Data Analysis to support the Children's Services Committees Initiative* Factsheets, the *State of the Nations Children (2012)* and the LCDC Data Profile: Kildare Local Authority (2014).

The updated audit of services was informed by the ongoing work in relation to the development of a service directory for the county.

### Analysis

The process of local needs analysis and the identification of priority areas & related actions took place on a phased basis.

An initial analysis identified key messages from the literature review, data collection & consultation.

This was presented to the main Committee for discussion, comment & feedback over the course of the 3 facilitated group sessions.

In addition, members completed individual data sheets where they were invited to provide evidence from their own organisation to support the key messages that appeared to be emerging. This involved consulting directly with their own colleagues/staff.

In deciding on priority areas and related actions, the CYPSC took account of the following:

- Data/Evidence
- Available resources
- CYPSC role ( to identify needs, gaps, blocks; make best use of resources we have; access resources to meet needs; implement national strategy; develop local strategy, improve outcomes).
- Consultation
- Experience & learning from last 3 years
- Strategic direction (what we are being asked to do)
- Gaps
- Existing priority areas.

Proposed actions were presented to CYPSC members, under the 5 national outcomes.

Organisations were invited to consider each action & identify if their organisation would be a lead or partner.

Actions without an identified lead organisation were not included in the plan.

Actions without at least one partner, in addition to the lead organisation, were not included in the plan.

Action deemed to warrant a national response rather than a local one in the first instance were not included in the plan.

Indicators were chosen on the basis of relevance and feasibility as a means of measuring if the outcome was achieved.

## Section 2: Socio-Demographic Profile of Co. Kildare

### Introduction

The relevant socio-demographic information for Co. Kildare is presented below under a number of headings. The figures are drawn from the 2011 Census figures unless otherwise stated. County and sub-county information has been included where available. Where possible the Co. Kildare figures are compared to the national context. The section concludes with a summary of the notable findings from the socio-demographic profile.

The main data sources for the demographic profile below are: The *County Level Data Analysis to support the Children's Services Committees Initiative* Factsheets, the *State of the Nations Children* (2012) and the LCDC Data Profile: Kildare Local Authority (2014).

Data was sourced directly from the National Registry of Deliberate Self Harm.

In addition to the above, data was sourced directly from DCYA, the Post Primary schools in Co. Kildare, Newbridge Family Resource Centre, the Garda Pulse system via the local Garda representative on the CYPSC, CYPSC member organisations – Tusla, SWRDATF-funded project (ARAS), KYS, KCCC and Teach Tearmainn.

### Acronyms

MD = Municipal District

LA = Local Authority

ED = Electoral Division

Nwb-K = Newbridge-Kildare Municipal District

Cel-Lxp = Celbridge-Leixlip Municipal District

OD = Overdose

### Population

- The population of Co. Kildare is 210,212.
- This is the 5<sup>th</sup> highest population of all 31 Local Authority areas in the country.
- Co. Kildare has the 6<sup>th</sup> highest population growth rate between the 2006 & 2011 Census: 12.9%, which significantly exceeds the national figure of 8.2%.
- 82 of the 89 EDs in Co. Kildare experienced population growth over this period.
- Maynooth MD experienced the highest rate of population growth of the 5 Municipal Districts in the county (19.2%).

### Age Profile of Population

Age Range	No.	No./31 LAs	% of Co. pop.	%/31 LAs	% State	+/- State	Highest no. MD	Highest % MD
17 years & under	59,449	5 <sup>th</sup> highest	28.3	3 <sup>rd</sup> highest	25	+	Nwb-K	Athy
0-4	18914	4 <sup>th</sup> highest	9	4 <sup>th</sup> highest	7.8	+	Nwb-K	Nwb-K
5-12	26800	5 <sup>th</sup> highest	12.75	2 <sup>nd</sup>	11	+	Nwb-K	Athy
13-17	13735	5 <sup>th</sup> highest	6.5	13 <sup>th</sup> lowest	6.3	+	Nwb-K	Nwb-K
18-24	18383	6 <sup>th</sup> highest	8.7	13 <sup>th</sup> highest	9	-	Maynooth	Maynooth

Since 2006 there has been a population decrease of 10.5% in the 18-24 cohort reflecting high levels of emigration since the economic decline 2009/10.

### Births

- There were 3417 births to Co. Kildare residents in 2013.
- The birth rate in the county in 2013 was 16.1 births per year per 1,000 population.
- This exceeds the national birth rate of 15.

### Age of mother

Under 20 years	20-24	25-29	30-34	35-39	40+
69	274	702	1321	854	197

### Deaths

There were 931 deaths of Co. Kildare residents in 2013.

This is a rate of 4.4 per year per 1,000 population and is less than the national rate of 6.5.

### Families

Co. Kildare exceeds the national figures for a number of family types as a proportion of all families i.e. pre-family, pre-school family, family with 5-9 year old, family with 10-14 year old.

Although the proportion of lone parents in the county is below the national average, the number of lone parents in the county is high – 5<sup>th</sup> highest of the 31 Local Authority areas in the country.

The proportion of lone parent families in Athy Municipal District exceeds the national figure.

Family Type	No.	No./31 LAs	% of Co. pop.	%/31 LAs	% State	+/- State	Highest no. MD	Highest % MD
Lone Parent	8892	5 <sup>th</sup> highest	21.9	6 <sup>th</sup> lowest	25.8	–	Nwb-K	Athy (+ State)
Pre-family	6644	5 <sup>th</sup> highest	11.9	6 <sup>th</sup> highest	11.1	+	Maynooth	Maynooth
Pre-School	7426	5 <sup>th</sup> highest	13.3	4 <sup>th</sup> highest	12	+	Nwb-K	Maynooth
5-9	7415	5 <sup>th</sup> highest	13.3	3 <sup>rd</sup> highest	11.3	+	Nwb-K	Athy
10-14	6957	5 <sup>th</sup> highest	12.5	2 <sup>nd</sup> highest	11.1	+	Nwb-K	Athy
15-19	6526	5 <sup>th</sup> highest	11.7	19 <sup>th</sup> highest	11.5	–	Nwb-K	Naas
20 +	12364	6 <sup>th</sup> highest	22.2	3 <sup>rd</sup> lowest	24.9	–	Nwb-K	Cel-Lxp

### Travellers

- Co. Kildare has the 12<sup>th</sup> highest population of Travellers out of the 31 Local Authority areas.
- It has the 5<sup>th</sup> lowest rate of Travellers as a proportion of total population of the county.
- Since 2006, the Traveller population has increased by 393 (+81.7%), which is the 3<sup>rd</sup>

highest rate of increase of the 31 Local Authority areas in the country.

- Highest number of Travellers live in the Newbridge-Kildare MD (232)
- Highest rate (as a proportion of the total population) is in Athy MD (0.49% of the total population are Travellers)

	Co. Kildare	State
No. of Travellers	874	
Travellers as % of total population	0.42%	
No. of Travellers aged 17 & under	490	
Travellers aged 17 years & under as % of total population of Travellers	56%	
Traveller children as % of total child population	0.82%	1.2%
Change in Traveller children as % of total child population from 2006	+0.5%	

### Disability

	Co. Kildare	State
No. of people with a disability	24369	
No. of children aged 17 & under with a disability	3556	
Children aged 17 years & under with a disability as % of total population of people with a disability	14.59%	
Children aged 17 years & under with a disability as % of total child population	5.98%	5.78%

A total of 58 childcare services in Co. Kildare reported to have children with a disability attending and 21 services reported to have a Special Needs Assistant in place.

### Children as Carers

	Co. Kildare	State	+ or - State
No. of children	275		
Rate per 1000	4.6	5.6	-

### New Communities

There has been a 50% increase in the number of foreign national children in Co. Kildare since the 2006 Census.

	Co. Kildare	State	+ or - State
% of Population that is White Irish	84.88%		
% Change from 2006 of Population that is White Irish	-0.92%		
No. of foreign national children	4542	93005	
% increase in no. of foreign national children from 2006	+50%	+49.5%	+
Foreign national children as % of total child population	7.77%	8.25%	-

### Asylum seekers

There are 68 residents in the Eyre Powell Direct Provision Centre in Newbridge. 28 % are children.

Number of children and ages in Eyre Powell Direct Provision Centre on Oct 9<sup>th</sup> 2014

<b>Eyre Powell D. P Centre</b>	0-4	5-12	13-18	Total
No of children in Centre	11	7	1	19

### Educational Attainment

241 students from the 2007 Cohort in State-aided schools in Co. Kildare did not complete the Leaving Certificate. Of these, 66 did not complete the Junior Certificate.

There is a higher proportion of post-primary students absent for 20 days or more in Co. Kildare than the State average.

	<b>Co. Kildare</b>	<b>State</b>	<b>+ or - State</b>
Average % of children absent for 20 days or more at primary level (2010/2011)	10.6%	10.6%	
Average % of children absent for 20 days or more at post-primary level (2010/2011)	21.8%	18.4%	+
Leaving Certificate Retention Rate (2007 cohort)	90.76%	90.13%	+
Junior Certificate Retention Rate (2007 cohort)	97.47%	96.93%	+
% of the population aged 15 years+ with upper secondary education only	21.18%	20.02%	+
% of the population aged 15 years+ whose education ceased at 17 years	9.17%	8.18%	+
% of children living in a household with mother with primary only or no formal education	3.9%	4.8%	-

### Early School Leaving

A local data collection exercise was undertaken with the 25 Post Primary schools in the county to establish the number of students who left each school in the academic year 2013/2014 and the destination on leaving school.

The cooperation from schools was very positive, with 100% response rate.

The data will not be published at this time. It is intended to convene a briefing session for the schools to feedback the findings from the data and agree how the data can best be used to inform the work of the CYPSC and improve outcomes for students.

### Commuting to Work

46.4% of residents in Co. Kildare with a fixed place of work are classed as Outbound (Out of County) Commuters.

Co. Kildare has the 6<sup>th</sup> highest rate of Outbound Commuters from the 31 Local Authority areas nationally.

The main destination for Outbound commuters is Dublin.

### Journey Time to Work, School or College

In Co. Kildare 12% of the population aged 5 years and over have a journey time to work, school or college of at least 1 hour. This exceeds the national figure of 7%.

**Social Welfare****Number of Recipients of Child Related Payments 2013**

Child Benefit		Family Income Supplement	Back to School Clothing & Footwear Allowance	Guardian's Payment (non-contributory)	Guardian's Payment (contributory)

## Housing

**There is a high level of mortgage indebtedness in the county.**

- 3<sup>rd</sup> highest rate of Owner Occupiers with a Mortgage in the country.
- Newbridge-Kildare MD highest number (7596)
- Celbridge-Leixlip MD highest rate (50.1%)

	Co. Kildare	State	+ or - State
No. of households with children in need of social housing	2924		
% of households in need who are one parent households	62%		
% of households who are owner occupied with mortgage	46.06%	35.35%	+
% of households who are renting	24%	27.24%	-
% of renting households who rent from Local Authority or voluntary body	6%	8.73%	-

There were 4135 recipients of rent supplement in Co. Kildare in 2013. This is the 3<sup>rd</sup> highest number in the country after Dublin and Cork.

There were 794 recipients of Mortgage Interest Supplement. The second highest number after Dublin.

Co. Kildare has the highest number of private rented households in the country (12,178) outside of Dublin and Cork.

## Medical Card Holders

There were 75,578 persons (including dependents) eligible for GMS medical cards in Kildare/West Wicklow in 2012, representing 1.65% of the total population of Ireland.

The number & percentage of eligible persons in Kildare/West Wicklow is the 6<sup>th</sup> highest of the 32 HSE Local Health Office areas nationally.

27,713 of eligible persons in Kildare/West Wicklow are under 25 years. This is 37% of the total number of eligible persons in the area.

## Health

The percentage of low birth weight babies born in Co. Kildare has increased by 10% since 2008.

There has been a decrease of 50% in the proportion of babies born to mothers aged 17 years & under since 2009.

The percentage of babies who are breastfed is above the national average.

The percentage of newborn babies in Kildare/West Wicklow visited by PHN within 48 hours of hospital discharge is below the national average.

	Co. Kildare	State	+ or -
No. of low birth weight babies born	234

### Suicide

In 2013 there were a total of 23 suicides in Co. Kildare. 17 Males and 6 Females.

The suicide rate in Co. Kildare (10.9 deaths per year per 100,000 population) marginally exceeds the State rate of 10.3.

The female suicide rate of 5.6 deaths per 100,000 population substantially exceeds the national rate of 3.4.

There are only 3 Local Authority areas in the country that exceed the Kildare figure for death by suicide in 2013 – Dublin City (48), Cork County (42) and Kerry (28).

### Juvenile Crime

The total number of referrals to the Juvenile Diversion Programme in the Kildare Division (covering all of Co. Kildare) in 2012 was 742. In 2011, the total was 824.

564 of the 2012 referrals were male (76%). 178 (24%) were female.

345 (47%) were referred from the Kildare Garda District. 193 (26%) from the Leixlip Garda District. 204 (27%) from the Naas Garda District.

269 (36%) of the referrals were 17 years old. 175 (24%) were 16 years old. 132 (18%) were 15 years old. 83 (11%) were 14 years old. 53 (7%) were 13 years old. 24 (3%) were 12 years old. 1

was 11 years old.

### Substance Misuse

#### Drug/Alcohol Treatment

The data refers to episodes of treatment in a calendar year, rather than on the individual person treated. This means individuals may appear in the figures more than once if they receive treatment at more than one centre or at the same centre more than once per year.

Co. Kildare 2012					
	Total	Alcohol	Cannabis	Opiates	Other
All Ages	615	279	117	182	37
Under 18	55	5	55	0	0
18 - 34	312	97	54	130	31

The treatment figures for under 18 years have increased year on year since 2010 (17), 2011 (34).

#### Methadone Treatment in South Western Regional Drug & Alcohol Task Force Area (includes Co. Kildare) 2013

Total				487
Gender	Male	Female

	25-29 years	62	45+ years	65

### Domestic Violence

170 women accessed the Teach Tearmainn Information & Support Service in 2014.

The refuge accommodation (2 x self-contained units) opened in 2014 & operated over 7 months of the year. In this 7 month period, 16 women were accommodated.

In 2014, 157 women & 271 children were unable to be accommodated. Of these, 41 women & 82 children were inappropriate referrals (homeless as opposed to domestic violence).

The remainder were unable to be accommodated due to unavailability of space.

**Disadvantage****Kildare has been affected by the economic downturn**

- Co. Kildare has experienced the 7<sup>th</sup> highest decrease in Absolute Index Score of the 31 Local Authority Areas.
- Co. Kildare has dropped from the 3<sup>rd</sup> to the 5<sup>th</sup> most affluent county in Ireland.

**Although Kildare is the 5<sup>th</sup> most affluent county in Ireland, there are areas of disadvantage.**

### Some Notable Findings

- Co. Kildare has experienced exceptional population growth since the last census, at a rate that far exceeds the national average.
- Kildare is highly populated, with a significant youth population.
- Kildare has been affected by the economic downturn.
- Kildare has been affected by emigration.
- The birth rate in Co. Kildare exceeds the national rate.
- There is a significant population of young families in Co. Kildare.
- There are a relatively small number of Traveller families in the county, but with a high proportion of children (over half). The Traveller population has increased since the 2006 Census.
- The percentage of children with a disability in the county as a proportion of the child population exceeds the national average.
- The number of foreign national children in the county has increased by 50% since 2006.
- Kildare is one of 16 counties that have an Asylum Seeker Direct Provision Centre. There are 19 children under 18 living in the Centre.
- Absenteeism at post-primary level is above the national average.
- The percentage of the population aged 15 years+ with upper secondary education only exceeds the national figure.
- The percentage of the population aged 15 years+ whose education ceased at 17 years exceeds the national figure.
- A significant proportion of Co. Kildare workers commute to work.
- The proportion of the population whose journey time to work, school or college is at least 1 hour is greater than the national average.
- Co. Kildare has experienced a major increase in numbers on the Live register since 2004, far exceeding the national figure for percentage change.
- 16% of those on the Live Register are under 25 years old.
- There is a high level of mortgage indebtedness in the county.
- Co. Kildare has the 3<sup>rd</sup> highest number of Rent Supplement recipients in the country.
- Kildare/West Wicklow experienced the highest percentage increase in Child Protection referrals from 2008 to 2012 among all Local Health Areas in the country.
- The rate of psychiatric admission of children exceeds the national average.
- On average 1 young person per week from Co. Kildare presented to a hospital due to deliberate self harm in 2013.
- The most common method of deliberate self harm amongst under 18s in Co. Kildare is drug overdose.
- There has been an increase in self-cutting as a method of self-harm for under 18s

presenting to hospital due to deliberate self harm.

- The number of young people with repeat presentations for deliberate self harm has trebled since 2010.
- The percentage of young people with repeat presentations for deliberate self harm more than doubled since 2010.
- The suicide rate in Co. Kildare (10.9 deaths per year per 100,000 population) marginally exceeds the State rate of 10.3.
- The female suicide rate of 5.6 deaths per 100,000 population substantially exceeds the national rate of 3.4.
- A significant number of women and children could not be accommodated in the domestic violence refuge in Co. Kildare in 2013 due to unavailability of space.
- In some areas of the county there are very high proportions of lone parent households. Overall, the number of lone parents in the county is high.
- There are areas of the county with high levels of early school leaving and low levels of educational attainment amongst the adult population.
- Unemployment has increased considerably and spread far beyond areas traditionally associated with unemployment in the county.
- In spite of being categorised as the 5<sup>th</sup> most affluent county in Ireland, there are many areas of considerable deprivation on Co. Kildare.

<b>Targeted Level 4</b>			<b>Targeted Level 4</b>
Probation Service	Sex Offender Risk and Management Committee (SORAM): 6-weekly meeting of Gardaí, Probation & Tusla.	Statutory	Targeted, Hardiker Level 4

## Section 4: Local Needs Analysis in Co. Kildare

This local needs analysis takes account of:

- Key evidence from the data, socio-demographic profile, audit of services & literature review
- Key themes emerging from the consultation.

The results of the local needs analysis highlight the following issues that pertain to children, young people and families in Co. Kildare.

### **Service Levels in Co. Kildare are not sufficient to meet the needs of children, young people & families in our county.**

An overreliance on deprivation measures in regional and national resource allocation, without due consideration of baseline service levels has negatively affected service development in Co. Kildare.

This approach, coupled with exceptional population growth and historically low levels of service in the county makes the task of achieving the 5 national outcomes extremely challenging. This has been further compounded by budget cuts resulting in service reductions and closures in recent years making it increasingly difficult to sustain existing service levels, let alone develop new service provision.

Demands on services are growing, both in terms of the number and complexity of referrals which is negatively impacting on the ability of children, young people & families to access the services they need when they need them, evidenced by increased waiting lists.

### **Service Levels**

A sample of inadequate service levels:

#### GPs

The number of GMS contracted GPs in Kildare/West Wicklow is 98. The rate of GP per 10,000 of child population (0-17 years) is 15.2 in Kildare/West Wicklow. This is significantly below the national rate of 24.7 GPs per 10,000 child population.

#### Gardaí

In 2009 there were 321 Gardaí in Co. Kildare. In 2014, the figure is 310, representing a decrease of 3.4%.

Excluding Gardaí who are members of special unit or based at Garda Headquarters, there were an average of 24.5 Gardaí per 10,000 people across the Republic in 2013.

In Co. Kildare the figure is 15 Gardaí per 10,000 of population – the lowest in the country.

#### Family Support Services

There is only one Springboard family support project in the county.

There are only 2 Family Resource Centres in Co. Kildare with a population of 59,449 under 18 years. In Co. Kerry, the population under 18 is 34,940 and there are 13 Family Resource Centres in the county.

#### Primary Care

Of the 5 Primary Care Network areas in Kildare/West Wicklow 2 do not have any Primary Care Social Work service. This includes North of the county - Kilcock, Celbridge, Leixlip, Maynooth and surrounding areas (Network 5) and Kildare Town, Rathangan, Monasterevin and surrounding areas (Network 4).

There are also gaps in coverage of the Primary Care Psychology service – Network area 5 is not covered by the service.

### Substance Misuse Services

- There is no Registrar to support mental health needs of young substance misusers.
- There is no methadone maintenance clinic in the county.
- There are only two Level 2 methadone-prescribing GPs in the county (Naas & Celbridge) & five Level 1 GPs (Naas, Leixlip, Athy, Celbridge & Monasterevin).

Comparison of two adolescent drug & alcohol treatment services:

<b>HALO – Naas, Co. Kildare</b>	<b>YoDA – Tallaght, Dublin 24</b>
Under 18's treatment service for young people with substance misuse issues funded by SWRDATF via HSE.	Under 18's treatment service for young people with addiction issues funded by HSE.
Catchment area: Kildare/West Wicklow	Catchment area: Dublin South West & Dublin South City
Population 0-17 years in Kildare West Wicklow: 64,573	Population 0-17 years in Dublin South West & Dublin South City: 61,077
Full time Child & adolescent Psychiatrist 0	Full time child & adolescent psychiatrist 1
Full time family therapist 0	Full time family therapist 1
Full time clinical nurse 0	Full time clinical nurse 1
Psychiatric or medical assessment X	Psychiatric or medical assessment ✓
Family therapy X	Family therapy ✓
Medication service X	Medication service ✓
85 % of its clients presented with cannabis and alcohol problems in 2011	60% of its clients presented with cannabis and alcohol problems. (Tallaght drugs task force 2011)
Castledermot 46.6km Athy 41km, Baltinglass 36.2km, Monasterevin 31.1km, Leixlip 25.9km. Transport and access to the Halo project is problematic for families.	All areas of Tallaght are within 5km from YoDA & can be easily accessed.

### Disability Services

There are a number of unfilled therapy grades on the new Network Disability teams.

### Domestic Violence Services

Two of the four self-contained accommodation units remain unopened due to resource constraints. This is in the context of significant numbers of women & children seeking refuge, but unable to access it due to unavailability of space.

### Youth Services

Kildare Youth Services receives no funding to provide services in large parts of the county i.e. in places such as Monasterevin, Maynooth, Kilcock, Carbury, Clane, Allenwood, Rathangan, Prosperous, and Robertstown.

### Post Leaving Certificate (PLC) programmes

There is one approved PLC place per 589 of population in Co. Kildare (1:589). The figure is 1:58 in Cavan & 1:61 in Carlow. Co. Kildare has the 4<sup>th</sup> highest ratio of population per place in the entire country.

### **Resource allocation**

Department of Children & Youth Affairs funding per capita (aged 10-24 years) for Local/Regional Drugs Task Force, Special Projects for Youth and Youth Information Centres in Co. Kildare in 2011 was €13.55. The national average was €22.31 per capita. The figure for Waterford City was €111.56. The figure for Westmeath was €51.91.

In terms of funding to Local Authorities per capita. The amount in Co. Kildare is €585. This is the 3<sup>rd</sup> lowest per capita of the 31 Local Authority areas in the country.

A recent review of the allocations framework to County Childcare Committees nationally found that Co. Kildare was underfunded.

There has been a number of high quality, yet ultimately unsuccessful, funding applications from Co. Kildare in recent years (since the first CYPSC plan was submitted). There is a sense that the needs of Co. Kildare may be at risk of being eclipsed by urban areas within the same HSE region i.e. Dublin South West (Tallaght, Clondalkin etc.) which historically have experienced high levels of need. The system of allocating resources does not appear to be taking account of this growing disparity in service levels across the region.

Examples of unsuccessful funding applications:

- Area Based Response to Child Poverty Initiative
- Jigsaw Youth Mental Health application
- National Early Years Access Initiative
- Genio 2014 grant application

### **Budget Cuts**

A sample of some of the budget cuts experienced in the county:

- HALO, the substance misuse treatment service for under 18s in the county experienced a 44% cut in budget from 2008.
- Funding for the Drug Prevention & Education Initiative (DPEI) has reduced by 42% since 2008.
- The only Springboard Family Support Project in the county has experienced a reduction in funding of 25% since 2010.
- Funding to the county Youth Service (Kildare Youth Services) from DCYA has reduced by 31% since 2007.
- Funding from the Irish Youth Justice Service for the two Garda Youth Diversion Projects in the county has been reduced by 12.5% since 2008.
- Funding to Kildare County Childcare Committee has reduced by 19.12% since 2008.
- The Family Resource Centre budget has been reduced by 5% per annum for the last 3 years.
- Over the same period, funding to the Youth Counselling Service (Kildare Youth Service) from the Family Support Agency Counselling Grant has reduced by 33%.
- The capitation rates for the Government childcare schemes – ECCE, CETS & CCS were

reduced in 2012.

- There has been an annual reduction in budget for the School Completion Programme in DEIS schools.

### **Service Reductions & Closures**

- Since 2008, there has been a loss of 14 Whole Time Equivalent posts from the Kildare Youth Services team of 30 Full Time & 26 Part Time staff.
- In 2014 there are 15 Garda stations, following the closure of 3 stations.
- Naas Child & Family Project Community Playgroup closed in 2014.
- A number of Naas Child & Family Project community programmes have ceased including the annual summer camp, parenting programmes, therapeutic groupwork programmes, sibling group work programmes, sensory groupwork programmes, creative arts programmes, developmental workshops etc.
- Since 2012, the number of childcare services in the county has reduced by 13.
- The homeless hostel in Newbridge closed in 2014.
- The posts of Visiting Teacher for Travellers & Traveller Resource Teacher ceased to exist.
- The early intervention/family support project, Lifestart, closed.
- The Pathways Tracking & Mentoring Project for Early School Leavers ceased.

### **Increasing demands on services**

#### Number of referrals

- Referrals to HALO, the substance use service for under 18s grew from 44 in 2009, to 62 in 2010 to 96 in 2013. This represents an increase of 118% over the period.
- Overall referrals to KYS Counselling increased by 22% from 2011 to 2013 (from 297 to 361). The largest increase by number was in Naas (80 to 102) the largest percentage increase was in Athy (54%) from 26 to 40 referrals.
- Referrals to Naas Child & Family Project increased by 52% from 23 in 2010 to 44 in 2014.
- ARAS – the adult substance misuse service in the county received 226 new referrals in 2014.

#### Complexity of referrals

The nature of the challenges facing children, young people & families in Co. Kildare is becoming increasingly complex:

- Deliberate self harm is a significant feature among referrals. For Kildare Youth Services Counselling service in Celbridge, there was a 60% increase in referrals for Deliberate self harm from 2012 to 2013.
- In the Counselling Service overall in 2013, 22% of young people were deemed to be at risk of Deliberate self harm at initial assessment; 15% at risk of suicide and 7% at risk of harm to others.
- Naas Child & Family Project reports that children at a young age are being referred for anxiety and worries. 25% of referrals made to NCFP in 2013 were from schools that were identifying this issue, alongside low mood in children.
- Naas Child & Family Project has also experienced an increase in referrals for attachment issues; for behavioural issues; and for children and their siblings with Autism /Aspergers.
- There has been a notable increase in the *total difficulties* scores in children on completed Goodman Strengths and Difficulties Questionnaires at intake in Naas Child & Family Project.
- In the HALO substance misuse service for under 18s there has been an almost 50% increase in presentation of substance misuse & mental health issues - 21 referrals from GP/mental health services in 2011; 31 referrals from GP / mental health services in 2013.
- HALO reports a number of complex issues emerging in the course of engaging young

people in treatment e.g. young people going missing / running away from home; young people in residential / foster care; young people self harming & presenting with suicide ideation; young people presenting with mental health issues; young people presenting with learning difficulties; young people with underage sexual activity disclosures requiring CPN; parents presenting as extremely distressed / overwhelmed; Parents presenting as extremely demanding; non Irish National families with limited English language.

- There is evidence that referrals from specialist services such as CAMHS & the Social Work department are increasing. In 2011, referrals to HALO from social services for young people in care represented 2% of all referrals to the service. In 2013, it had grown to 20%.
- Referrals to the Youth Counselling Service from CAMHS/GPs rose from 20% in 2012 to 24% in 2014.

### Waiting lists

The increasing demands on services both in terms of volume and profile of referrals have impacted on access to services, evidenced by increases in waiting lists.

- Naas Child & Family Project had to make changes to the model of service delivery in 2010 to respond to the lengthy waiting times experienced by families in accessing the service— 25 families on the waiting list, with a wait time of 8 months. The service has worked hard to reduce this waiting time but at the expense of and loss of community services for families in need.
- The time young people spend on a waiting list for the Youth Counselling service is increasing. In 2013 waiting times ranged from 4 to 7 months for KYS Counselling. From 2011 to 2013, waiting times increased in 4 of the 6 areas in which counselling is provided.
- In addition, 98 referrals were received by the Counselling service for young people living outside the catchment area for services, of which 93 were from areas in Co. Kildare which are not covered by the counselling service.
- It is also reported that some organisations & individuals are choosing not to refer to the Counselling service because of the length of wait.
- ARAS – the adult substance misuse service in the county employed temporary relief staff to address the waiting list. This was successful as a short term measure, however, the waiting list returned when the temporary post ceased (50 on a waiting list).
- As a consequence of reductions in the funding for counselling, Newbridge Family Resource Centre counselling service waiting list has increased from 0 to 4-6 months.
- In Co. Kildare as a whole, there were 191 children on a waiting list for a childcare place. This rose to 226 in 2013.
- There are significant waiting times across the range of specialist services including speech and language, Occupational Therapy, assessment of need, disability services, psychology, CAMHS.

**There is a concern that the low service levels, the increasing demands on existing services and the growing waiting lists means that children, young people and families are not getting the support they need when they need it, leading to an escalation of difficulties.**

It is arguable that this may explain in part the substantial increase of 240% (+489) in Child Protection referrals from 2008 to 2012 - the highest percentage increase in the country.

### Some Additional Service Gaps

- There is a dearth of community childcare services in Co. Kildare. The ratio of private to community childcare services nationally is 2:1. In Co. Kildare the ratio is 11:1.
- Family support is a significant gap that is repeatedly highlighted by stakeholders – general family supports, supports for families of children with a disability, families of substance misusers, families affected by suicide.
- There is no Methadone Maintenance Treatment (MMT) clinic in the County.

- There is a lack of aftercare for stable substance misusers and/or those who are abstinent.
- There is an absence of a homeless hostel that will accommodate active users.
- There is no detox facility or residential treatment for substance misusers under 18 years in Co. Kildare.
- There is no dedicated Youth Officer post (ETB) for Co. Kildare.

### Themes

A number of key themes emerged through the data analysis, consultation and literature review.

Three of these themes emerged over the course of the planning process for the 3-Year plan 2015-2017, that did not feature to any significant degree among the issues identified for the previous plan: Domestic violence, Homelessness & Disability.

### Domestic Violence

Domestic violence has been identified as a growing concern across a range of service providers – from specialist services such as Tusla to Family Resource Centres to universal pre-school providers. The data from Teach Tearmainn, the local domestic violence support service, clearly indicates that service levels are inadequate to meet the presenting needs. Domestic violence has become more prevalent as an issue among referrals to Naas Child & Family Project, with 10% of families who access NCFP being referred to Teach Tearmainn.

*Link to Action Plan:*

- Explore the provision of supports to children living in refuge accommodation.
- Convene a themed multi-agency workshop/discussion forum in relation to the needs of children and their families affected by domestic violence to identify issues, gaps & possible responses.

### Homelessness

The data in relation to housing in the county indicates high levels of mortgage indebtedness, high numbers in receipt of Rent Supplement & high numbers living in private-rented accommodation. Reductions in allowances under Rent Supplement, coupled with rising rents in the private rented sector points to potential difficulties with security of tenure for many families. Increases in homelessness are being reported across services such as Naas Hospital Emergency Department, Newbridge Family Resource Centre and the Simon Community. In 2014, Newbridge Family Resource Centre supported 4 families who were homeless. In the previous 5 years, the Centre had supported two cases of homelessness. There has been a reported increase in the number of queries to the Centre in relation to housing. For the Simon Community in 2014 the vast majority of clients were families, whereas in the previous year it was individuals.

*Link to the Action Plan:*

- Convene a themed multi-agency workshop/discussion forum in relation to the needs of children and their families who are homeless to identify issues, gaps & possible responses.

### Disability

The percentage of children with a disability in the county as a proportion of the child population exceeds the national average.

Concern for children & young people with a disability has been expressed by the young people involved in Comhairle na nÓg and this concern, along with concern for their parents, is shared by a range of service providers including schools, Youth Counselling Service, Naas Child & Family Project, Kildare County Childcare Committee and Tusla. 30% of the referrals on the Tusla Family Support Service waiting list have a primary referral reason of child with disability or special need. There is a need for greater clarity as to referral pathways & roles & responsibilities following the recent reconfiguration of services under the *Progressing Disabilities* initiative. There are service gaps where therapy grades remain unfilled and waiting times for services are a challenge.

*Link to Action Plan:*

- Convene a themed multi-agency workshop/discussion forum in relation to the needs of children with disabilities and their families to identify issues, gaps & possible responses.

**Substance misuse**

This is identified as an issue by young people via Comhairle na nÓg and their concerns are echoed by service providers and are clearly reflected in the data e.g. increase in referrals to HALO project. Coupled with the significant service gaps identified means that this theme continues to be a priority for Kildare CYPSC over the next 3 years:

*Link to the Action Plan:*

- Support for the continued delivery of the Strengthening Families programme on an annual basis.
- Support for the development of an initiative relating to alcohol use utilising Dormant Accounts resources.
- Support the delivery of the pilot programme for children/siblings of substance misusers.
- Support the roll out of the National Drug Rehabilitation Framework via the NRF Working Group.

**Family support**

There are a large number of families in the county. Significant gaps have been identified in relation to family support in general, as well as for specific groups. It is widely acknowledged in research & good practice literature that supporting parents is the best way to support children & young people.

*Link to the Action Plan:*

- Support the development & sustainability of existing and new Parent & Toddler groups.
- Support the Kildare West Wicklow Parenting Forum in the development of a local Parenting Strategy.
- Develop the parentingsupport.ie website as an information hub for parents & professionals in the area of parenting & family support.

**Mental health**

There are gaps in the universal services in this area, with significant waiting lists for both universal & specialist supports. The mental health of children & young people is of growing concern to schools, parents and service providers. The data supports the validity of this concern e.g. presentations for deliberate self harm are increasing, repeat presentations are increasing and the female suicide rate in the county exceeds the national rate.

*Link to the Action Plan:*

- Support the local implementation of the national mental health promotion campaign #littlethings
- Support a review and renewed roll out of the Community Response Plan to death by suspected suicide.
- Explore options for provision of the SPACE programme (for parents of young people who self harm), the Working Things Out Programme (mental health programme for young people), Decider skills and other relevant evidence-based mental health programme in the county.
- Support the development & delivery of a support programme for families in the aftermath of death by suicide.

**Early School Leaving**

The data suggests that there is small but significant cohort of young people who are not engaged in education, training or employment in Co. Kildare. School absenteeism figures in the county are higher than national figures as is the proportion of the population with second level education

only. The impact of early school leaving on future outcomes is well documented. The importance of supporting transitions in the education lifecycle to promote retention is widely acknowledged in the research. Early school leavers are a common group featuring among referrals to the HALO under 18s substance misuse treatment service and KYS Youth Counselling service. School refusal has been identified as a growing issue by service providers e.g. Tusla Family Support Service, Education Welfare Service, HALO & Youth Counselling Service. A quality early education enhances positive educational outcomes.

*Link to the Action Plan:*

- Promote the free pre-school year and Aistear to parents.
- Support the local implementation of the National Early Years strategy.
- Support the expansion of the Junior Transition Programme (I CAN Book) in the county.
- Continue the data collection exercise with Post Primary schools on an annual basis to establish the number, profile and destination of students in the county who leave school. Discuss the key findings with schools and explore together possible responses.
- Map the progression pathways in education, training and employment for young people out-of-school, those who left school early and 18-24 year olds with a Leaving Cert, identify gaps & develop responses.
- Explore the expansion of *iScoil* in the county.

### **Poverty & Unemployment**

Co. Kildare did not escape the negative impact of the economic downturn that has taken place across Ireland in recent years. Unemployment has increased considerably and spread far beyond areas traditionally associated with unemployment in the county.

The number on the Live Register in Co. Kildare has increased from 4350 in 2004 to 17,208 in 2013, representing a percentage increase of 295.6%. This is the second highest percentage change in the country and far exceeds the national figure of 149%.

A significant proportion of those who are unemployed in Co. Kildare are under 25 years old. Service providers report that family poverty is on the increase and the negative effects on the wellbeing of parents and children are evident. Services are reporting an increase in the demand for food vouchers, requests for support from St. Vincent de Paul & similar charitable organisations and use of the food bank at a local church. Services are visiting homes that are without heating & where the diet for children and family is very poor. The issue of difficulty with arrears for rent & utility bills is more prevalent.

*Link to Action Plan:*

- Support the development & sustainability of community childcare services in the county to reduce access to childcare as a barrier to education, training and employment.
- Convene a themed multi-agency workshop/discussion forum in relation to youth unemployment to identify issues, gaps & possible responses.
- Support the multi-agency Steering Committee under the National Aftercare Policy for young people 18+ making the transition from a care placement to independent adult life in the community.

### **Youth Facilities and Activities**

The need for enhanced access to youth facilities and activities was strongly identified as an issue by participants of Comhairle na nÓg and by parents and young people who were consulted as part of "Play Day". This is echoed by service providers who repeatedly highlight the importance of social, recreational and sporting activities for the wellbeing of children and young people.

*Link to the Action Plan:*

- Continue to support the development of the Youth Hub in Kildare Town.
- Support the development of dedicated youth space in areas where a need has been identified e.g. Newbridge, Monasterevin, Rathangan.

**Direct Provision**

The particular challenge posed to families living in an asylum seeker Direct Provision centres has been the subject the national attention in recent times. Service providers acknowledge that children, young people and families living in these circumstances over an extended period of time are increasingly vulnerable. Co. Kildare is one of 16 counties in which there is an asylum seeker Direct Provision Centre.

*Link to Action Plan:*

- Explore the provision of socialisation, recreational and developmental supports for children and young people living in the asylum seeker Direct Provision Centre in Newbridge.
- Provide support for families moving from Direct Provision to independent living in the community.

**Youth Participation**

Research supports the link between youth participation and positive mental health and wellbeing. The theme of the 2014 Comhairle na nÓg AGM in Co. Kildare was: *Open your Mind to Article 12 of the United Nations Convention on the Rights of the Child* - 'Children have the right to say what they think should happen when adults are making decisions that affect them and to have their opinions taken into account.' The value of the voice of young people is widely recognised among service providers in the county.

*Link to Action Plan:*

- Support the development of a Participation Strategy for children, young people and parents utilising the resources being made available from Atlantic Philanthropies via Tusla.
- Support the voice of children and young people to be heard on the Children and Young People's Services Committee, Public Participation Networks, Local Community Development Committee, Joint Policing Committee & other relevant local structures.

## Section 5: Summary of Children and Young People’s Plan for Kildare

Outcome Areas	Local Priority Areas * <i>(to be identified following the local needs analysis and the audit of services)</i>
Active and healthy, physical and mental wellbeing	<i>Substance Misuse, Mental Health, Youth Facilities &amp; Activities</i>
Achieving full potential in learning and development	<i>Early school leaving, Family Support, Disability</i>
Safe and protected from harm	<i>Homelessness, Domestic violence</i>
Economic security and opportunity	<i>Unemployment</i>
Connected, respected and contributing to their world	<i>Direct Provision, Youth Participation</i>

Change Management	Local Priority Areas
<b>Change management</b> - CYPSCs may also identify priority areas relating to change management and supports needed to enable interagency collaboration at local level, e.g. development of information sharing protocols, interagency training	<i>Resourcing, Kildare CYPSC Development, Evidence, Inter-Agency Working, Training, Information, Influencing policy &amp; practice</i>

## Section 6: Action Plan for Kildare Children and Young People’s Services Committee

Action Plan for Kildare Children and Young People’s Services Committee							
Outcome 1: Active and healthy, physical and mental wellbeing							
Priority Area	Objective(s)	Indicators	Target	Activities	Timeframe for completion	Lead Responsibility	Link to other plans
Substance Misuse	To increase the range of supports available to children, young people and families affected by substance misuse.	No. of families participating in Strengthening Families Programme	20 families will complete the Strengthening Families Programme	Support the delivery of the Strengthening Families Programme on an annual basis in the county.	2015, 2016, 2017	SWRDATAF	National Drugs Strategy (2009 – 2016)  SWRDATAF Service Review & Strategic Plan (2011-2014) Final Report
		No. of new alcohol-themed initiatives in the county.	A new alcohol-themed initiative will be developed	Support the development of an initiative relating to alcohol use utilising Dormant Accounts resources	2016	SWRDATAF	
		No. of young people participating in the pilot programme for siblings/children of substance misusers.	10 young people will participate in the pilot programme for siblings/children of substance misusers.	Support the delivery of the pilot programme for siblings/children of substance misusers.	2015	SWRDATAF	
Mental Health	To raise awareness of how to promote positive mental health – self and others.	No. of awareness raising activities taking place in the county.	4 awareness raising activities in the county.	Support the local implementation of the national mental health promotion campaign #littletings	2015, 2016	HSE	Healthy Ireland (2013)  NOSP/HSE WorkPlan

<b>Action Plan for Kildare Children and Young People's Services Committee</b>							
<b>Outcome 1: Active and healthy, physical and mental wellbeing</b>							
<b>Priority Area</b>	<b>Objective(s)</b>	<b>Indicators</b>	<b>Target</b>	<b>Activities</b>	<b>Timeframe for completion</b>	<b>Lead Responsibility</b>	<b>Link to other plans</b>
Mental Health	To increase the range of supports available to children, young people and families affected by mental health issues.	No. of new programmes available in the county	2 new programmes available in the county	Explore the options for the provision of the SPACE programme (for parents of young people who self harm), the Working Things Out programme (mental health programme for young people), Decider skills & other relevant evidence-based mental health programmes in the county.	2016, 2017	HSE	Vision for Change (2006)  Reach Out Strategy (2005-2014)
	To improve the coordination and effectiveness of the response following a death by suicide in the county.	No. of stakeholder organisations aware of the Community Response Plan.  No. of reviews completed.	All relevant stakeholder organisations aware of the Community Response Plan.  Review of Community Response Plan completed.	Support a review and renewed roll-out of the Community Response Plan to death by suspected suicide.	2016	Tusla	Reach Out Strategy (2005-2014)

## Action Plan for Kildare Children and Young People's Services Committee

### Outcome 1: Active and healthy, physical and mental wellbeing

Priority Area	Objective(s)	Indicators	Target	Activities	Timeframe for completion	Lead Responsibility	Link to other plans
		No. of programmes developed.  No. of individuals participating in pilot training programme.	Programme developed.  12 individuals participate in pilot training programme.	Support the development and delivery of a support programme for families in the aftermath of death by suicide.	2017	Tusla	Reach Out Strategy (2005-2014)
Youth Facilities and Activities	To increase the number of youth facilities in the county.	No. of youth facilities in the county.	1 new facility established in Kildare Town.	Continue to support the development of the Youth Hub in Kildare Town	2016	KYS/Board of Youth Hub	KYS Strategic Plan
		No. of youth facilities in the county.	Youth space created in 2 areas of need.	Support the development of dedicated youth space in areas where a need has been identified e.g. Newbridge, Monasterevin, Rathangan	2017	KYS	Monasterevin Youth Needs (2013)

<b>Action Plan for Kildare Children and Young People's Services Committee</b>							
<b>Outcome 2: Achieving full potential in learning and development</b>

		No. of service directories circulated.	Directory of services produced and disseminated to relevant stakeholders	Develop & disseminate a directory of services for Co. Kildare.	2015, 2016, 2017	ALL	

**Lead Partners:**

Co. Kildare LEADER Partnership has been identified as lead for a number of actions in this plan. The ability of CKLP to assume this role is dependent on the outcome of the SICAP tender process.

**Actions omitted from the action plan:**

A number of actions identified by Kildare CYPSC were omitted from the final plan as they were deemed to be systemic issues and/or more appropriately addressed at national rather than local level:

- Coordinate the supports to schools in relation to student wellbeing
- Expand the data collection exercise to primary schools in the county to establish the number, profile and destination of students who leave school at primary level.
- Explore the development of an initiative to enhance the engagement & participation of Traveller students in education.

## Section 7: Monitoring and Review

### **Local Level**

An annual Work Plan will be agreed for each of the 3 years of the plan.

A Work Plan Progress update will be presented at every Kildare CYPSC meeting.

An annual review of the Work Plan will be completed by the first quarter of the subsequent year.

An overall review of the 3-year Plan will be completed as part of the planning process for the next 3-year Plan (2018-2020).

### **National Level**

A quarterly submission is made to the National Coordinator, the National Steering Group and the Department of Children & Youth Affairs by the Coordinators Network, which reports on progress under the 5 national outcomes and includes contribution from all CYPSCs, including Kildare.

## Section 8: Appendices
