

## Survey on Children and Young People's Plan

South Dublin Children and Young People's Services Committee (CYPSC) is drafting a new plan for children and young people, and we need your help!

We would like you to help us ask children and young people what should be in our plan.

We would be grateful if you would ask children in your group a number of questions and record the answers on the attached survey. It should not take any more than 10 minutes to complete the survey.

Please click on the link below to see the questionnaire:
