

CYPSC

Improving Outcomes for Children and Young People

Established in 2015, the Clare CYPSC is made up of representation from 24 different statutory and voluntary agencies from across County Clare.

...there is a commitment of CYPSC members to realising systems change

CYPSC's role is to enhance interagency co-operation and to realise the five national outcomes that children and young people:

1. Are Active & Healthy

2. Are achieving in Learning & Development

3. Are Safe & Protected from harm

4. Have Economic Security & Opportunity

5. Are Connected, Respected & Contributing to their world

We have five subgroups linked to each of the outcomes below working on actions contained within the Clare CYPSC three year plan

... seldom-heard members of the community are receiving support:

CYPSC responds to the needs of **all** children and young people aged between 0-24 years old.

The Clare CYPSC supports a trauma informed model of practice. We have delivered actions to improve outcomes for families in Homeless Accommodation, children with disabilities, young people living in International Protection Accommodation and young people needing additional support to engage in education.

...a practice and culture of collaboration is building through the delivery of innovative, multiagency, locally specific projects

The top priority needs of children and young people in Clare are:

Challenges Faced:

The need for a dedicated community youth mental health service in Clare;
The need for alternative education service provision for 12-15 year olds;
Addressing food and income poverty.

...participation of children and young people in decision making is growing

The voices of children and young people are at the heart of decision making in CYPSC
